RESULT 24 S74450

```
ferrichrome-iron receptor 2 - Synechocystis sp. (strain PCC 6803)

N;Alternate names: protein sll1406
C;Species: Synechocystis sp.
A;Variety: PCC 6803
C;Date: 25-Apr-1997 #sequence_revision 25-Apr-1997 #text_change 20-Jun-2000
C;Accession: S74450
C;Accession: S74450
C;Accession: S7450
O; K.; Okumura, S.; Kotani, H.; Tanaka, A.; Asamizu, E.; Nakamura, Y.; Miyajima, N.; O, K.; Okumura, S.; Shimpo, S.; Takeuchi, C.; Wada, T.; Watanabe, A.; Yamada, M.; Yasuda DNA Res. 3, 109-136, 1996
A;Title: Sequence analysis of the genome of the unicellular cyanobacterium Synechocystis
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             A;Gene: fhuA 2
A;Start codon: GTG
C;Superfamily: ferrichrome-iron receptor 1; tonB-dependent receptor amino-terminal homol
                                                                                                                                                                                                                                                                                                                                                                                                                                              NID:g1651650; PIDN:BAA16602.1; PID:g165167

F; 579-853/Domain: tonB-dependent receptor carboxyl-terminal homology <TNC>
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     $74457

Retrichmone-iron receptor 3 - Synechocystis sp. (strain PCC 6803)

N,Alternate names: protein slr1490

C;Species: Synechocystis sp.

C;Date: 25-Apr-1997 #sequence_revision 25-Apr-1997 #text_change 20-Jun-2000

C;Date: 25-Apr-1997 #sequence_revision 25-Apr-1997 #text_change 20-Jun-2000

C;Accession: 874457
